# SANDESH KENCHUGUNDI

**Email**: sandeshkenchugundi01@gmail.com | **Phone**: +919160903500| **Location**: Saifabad, Hyderabad

**LinkedIn**: linkin.com/in/sandesh-kenchugundi | **GitHub**:github.com/sandesh9160 | **Portfolio**: sandesh-portfolio2.netlify.app

---

## EDUCATION

**Osmania University | University College of Science, Saifabad-** *Master of Computer Applications(MCA)*
*Nov 2022 - Oct 2024 | Hyderabad*
- CGPA:8.0(Till: SEM III)

**Osmania University| BJR Government Degree College,Narayanaguda -***Bsc (MPCS)*
*Oct 2019 – Sep 2022*
- CGPA: 7.96

---

## EXPERIENCE

**AARAM IT Solutions –** *Full Stack Developer Intern*
*Dec 2023- May 2024 | Hyderabad*
- Engineered scalable web applications utilizing Python and Django ,enhancing backend functionality.
- Designed and deployed intuitive, responsive interfaces using HTML,CSS,JavaScript and Bootsrap,elevating user experience.
- Streamlined project workflows, consistently  meeting point tight deadlines through effective prioritization.
- Integrated modern technologies and best practices, driving efficiency and optimizing overall project performance.

---

## SKILLS

**Programming Language:** Python
**Frameworks/Libraries:** Django,JavaScript,Bootsrap(4.5)
**Tools:** Visual Studio Code(VS Code)
**UI Technologies:** HTML5,CSS3
**Database:** MYSQL,SQLite3

---

## PROJECTS

**Data Analysis Using Python**
*Technologies Used: Python,Pandas,Matplotlib,MySQL,MS SQL Server,Django and Excel.*
- Developed synthetic data generation tools leveraging Django Faker, transforming data into various formats including MySQL,SQL Server and Excel.
- Analyzed datasets with Pandas to perform exploratory data analysis(EDA),reveling trends and patterns for strategic insights.
- Created visualizations (histograms,scatter plots and line charts) using Matplotlib,enabling data-driven decision- making.

**Online Bus Ticket Reservation System**
*Technologies Used: Python,Django,Bootsrap,CSS,JavaScript,SQLite3.*
- Architected an online bus seat reservation system ,providing a seamless user experience through visually appealing interface developed with Bootsrap.
- Implemented essential features like registration ,bus search ,seat booking, booking history,and cancellation to facilitate easy navigation for end users.

---

## CERTIFICATIONS

- I hold a Basic SQL ceritification from HackerRank,a top platform for coding skills.
- Received Python Certification from Udemy, a respected online educational provider.
- I completed a Full Stack Web Development certification in Python from Narayana Tech House,a leading tech training institution.

---

## OTHERS SKILLS

- Communication Skills in both verbal and written,particularly in diverse workplace.
- Ability to collaborate effectively with individuals from diverse backgrounds
